

# Agile Team Project

Week 3 Part 0 :  
Milestone I overview

# Some General Questions

- Have you found real customers? Got real data?
- Terminology: website vs web application
- AI ly: should our app target specific features for X disability?

# app idea list feedback

- Simple, easily explained concepts
- Unique combination of existing ideas
- Have at least one real person
- Aspect of enjoyment
- Aspect of utility
- Want to use it

# app idea list feedback

- Static web sites, no user-specific state [not an app]
- Rely on lots of users contributing (social media) [have to use/enjoy]
- Rely on lots of data entry (laborious) [have to use/don't enjoy]
- Already exists, idea not original enough [don't have to use/enjoy]
- Self-targeted, user-less, problem-less [don't have to use/don't enjoy]
- Too similar to another idea [competing ideas]

# S1 (canvas)

## S1: Ideation - Individual Submission 1 (5%)

[Start Assignment](#)

**Due** Wednesday by 16:00    **Points** 5    **Submitting** a file upload    **File types** pdf  
**Available** 9 Feb at 0:00 - 17 Feb at 23:59

from [task.pdf](#) 

S1	Submission 1	individual	<ul style="list-style-type: none"><li>• mockup of functionality (not login)</li><li>• kanban feature cards</li><li>• persona(s)</li><li>• git commit and SSH setup</li></ul>	5%	week 3	15/02/2023
----	--------------	------------	--	----	--------	------------

When your team have one agreed\* app concept, each team member must submit:

- one mockup - representing one feature (except login) of your app

# Team Project 2022-23

## S1 Ranking Criteria - guidelines

February 2023

### **General guidance**

#### **Why do we need these guidelines?**

In Milestone 1 the team will decide the ranking of individual work within the team submitted in Submission 1. The team will be able to report non-contributions or low-contributions, and we will investigate these. The team will decide the ranking criteria and this document gives some guidance of what is

# Discussion Topic: Good examples from last year

## Good examples from last year

Dear students,

To help you better understand what we are looking for in Submission 1, I have attached some good examples from last year.

The persona(s) should be detailed and vivid to give the assessors a clear idea about who will use your application. The personas should be based on real people - do get permission from your users to include them in your work. The personas must make sense and be coherent with your mockups.

**PS. the mockup and personas examples attached below are from two different teams, so they are not coherent with each other.**

Each meeting diary record must contain the following information:

- Date and Time
- Place/Venue
- Attendees and Apologies (if there are any)
- Discussions/Agenda
- Actions/Decisions made

# Example individual submission for S1.pdf

Example individual submission for S1 (individual submission)

(Some examples of personas and mockups here: [https://canvas.bham.ac.uk/courses/65777/discussion\\_topics/949199](https://canvas.bham.ac.uk/courses/65777/discussion_topics/949199) )

Mockup:

This mockup is the feature ... in the app:

Uploaded the source files to the folder on canvas/OneDrive/git

# Questions (m2+)

- How do we get started with app development:
  - masterclasses: git, al ly, ci/cd, full stack
