

## Individual Submission for S1

### Mockup

This is the mockup for the anti-procrastination feature of our application

Blocked Sites		
Url	Type	Time Left
https://www.youtube.com/	Timed	00 : 18 : 36 : 54
https://www.instagram.com/	Timed	00 : 12 : 36 : 54
https://steampowered.com/	Permanent	∞

### Persona

This persona represents Michael who would be a potential user of our application, he tends to lose focus often due to the vast amount of time sucks that exist

**Michael Wright**  
*I really need to pass my 2nd semester*

**Personal Data**  
Age: 19

**Accessibility:** No disabilities

**Work:** Student

**Location:** Birmingham, UK

#### Bio

Exam season is approaching, and Michael is falling behind in two of his modules. He has been trying to catch up and do well in this module due to his performance in the first semester, but he tends to lose focus and procrastinate on social media applications like Instagram and TikTok or video hosting sites like YouTube causing him to lose track of time..

Michael would like there to be a way to restrict access to these sites so that he can concentrate his focus on his studies.

#### Goals

- passing his exams
- finding a way to improve his focus to memorise the module.
- finding a way to better schedule his time to make his work more efficient

#### Issues

- Difficulty staying focused while studying
- Wastes time by using social media sites
- Inefficient use of time whiles studying(may spend more time focusing on one module than the other)

#### Technology capability

**Website**  
★★★★★

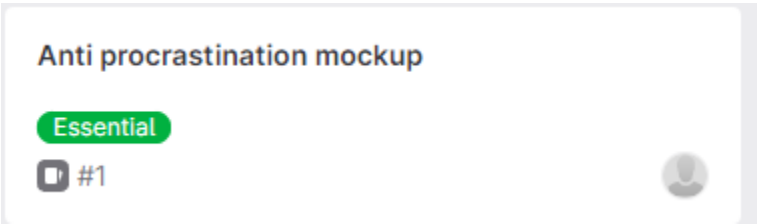

**Software**  
★★★★★

**Mobile**  
★★★★★

**Favorite phone brand**  

**Most used applications**
